To By-law No. 94- 051

ORDER MADE UNDER

THE NIAGARA ESCARPMENT PLANNING AND DEVELOPMENT ACT,

R.S.O. 1990, CHAPTER N-2

ORDER

Under subsection 15(2) of the Niagara Escarpment Planning and Development Act,

IT IS ORDERED THAT:

The Official Plan for the City of Hamilton is amended as follows:

- 1) Amend Subsection A.2.3 - Industrial Uses by adding the following new clause:

"A.2.3.38 Notwithstanding the foregoing, Industrial Uses are not permitted on lands designated Escarpment Natural Area and Escarpment Protection Area in the Niagara Escarpment Plan, as identified by Special Policy Area "1a" and "1b" on Schedule "B" - Special Policy Areas.

Within this area, existing industrial uses are recognized. Minor expansions, as well as changes in the use and replacements, may be permitted where it can be demonstrated that the objectives of the applicable Niagara Escarpment Plan designation are met."

- 2) Amend Subsection A.2.4 - Open Space by adding the following additional paragraph to the end of Clause A.2.4.2:

"Notwithstanding the foregoing, limited commercial uses which are ancillary to and support the primary OPEN SPACE use are not permitted on lands designated OPEN SPACE on Schedule "A" which are designated Escarpment Natural Area and Escarpment Protection Area in the Niagara Escarpment Plan, as identified by Special Policy Area "1a" and "1b" on Schedule "B" - Special Policy Areas."

- 3) Amend Subsection A.2.6 -- Major Institutional Uses by adding the following new clause:

"A.2.6.6 Notwithstanding Policy A.2.6.1, only small-scale institutional uses are permitted on lands designated INSTITUTIONAL on Schedule "A" which are designated Escarpment Protection Area in the Niagara Escarpment Plan, as identified by Special Policy Area "1b" on Schedule "B" - Special Policy Areas. In this context, "small-scale" means a building having a floor area of not more than 460 m² (5,000 square feet)."

- 4) Amend Subsection A.2.7 - Utility Uses by adding the following new clause:

"A.2.7.6 Notwithstanding the foregoing, within the Escarpment Natural Area, as identified by Special Policy Area "1a" on Schedule "B" - Special Policy Areas, only essential utility facilities are permitted. Within the Niagara Escarpment Plan Area, "essential" means that which is deemed necessary to the public interest after all alternatives have been considered."

- 5) Amend Subsection A.2.9.1 - Niagara Escarpment by deleting the entire subsection and replacing it with the following:

"It is the intent of this Plan to preserve the valuable attributes of the NIAGARA ESCARPMENT throughout the City, to recognize the potential of so doing through the actions of the NIAGARA ESCARPMENT Commission, and to conform with the policies of the NIAGARA ESCARPMENT Plan.

A.2.9.1.1 The City of Hamilton Official Plan has been brought into conformity with the Niagara Escarpment Plan, as approved by Provincial Cabinet in June, 1985 and subsequent Amendments approved prior to January, 1992.

A.2.9.1.2 The lands shown on Schedule "B" as SPECIAL POLICY AREA 1 are located within the Niagara Escarpment Plan. To implement the Niagara Escarpment Plan, SPECIAL POLICY AREA 1 is subdivided, as shown on Schedule "B", into Special Policy Areas "1a", "1b" and "1c".

The outer boundary of the area covered by the Niagara Escarpment Plan is fixed and inflexible, and can be changed only by an Amendment to the Niagara Escarpment Plan. The internal boundaries between designations

within the Niagara Escarpment Plan, however, are less definite except where they are formed by such facilities as roads, railways and electrical transmission lines. The exact delineation of designation boundaries on specific sites will be done by the implementing body through the application of the designation criteria contained in the Niagara Escarpment Plan utilizing the most detailed or up-to-date information available and site inspections. Such designation boundary interpretations will not require amendments to the Niagara Escarpment Plan."

A.2.9.1.3 The following policies apply to the areas shown on Schedule "B" - Special Policy Areas as Special Policy Areas "1a", "1b" and "1c":

i) Special Policy Area "1a" - Escarpment Natural Area - is based on maintaining the most natural Escarpment features, stream valleys, wetlands, related significant natural areas as well as maintaining and enhancing the landscape quality of Escarpment features. Compatible recreation and conservation activities will be encouraged. Accordingly, the permitted uses will include:

- existing uses;
- non-intensive recreation uses relating to nature viewing and trail activities (excluding the use of trail bikes or all-terrain vehicles);
- forest, wildlife and fisheries management;
- archaeological activities;
- essential transportation and utility facilities;
- essential watershed management and flood and erosion control projects;
- accessory buildings, structures and facilities (e.g., garage) to support the permitted uses as well as site modifications required to accommodate them; and,
- uses permitted in approved park master or management plans.

New lots may be permitted for the purpose of

correcting conveyances, enlarging existing lots or through acquisition by a public body.

- ii) Special Policy Area "1b" - Escarpment Protection Area - encompasses Escarpment features that have been significantly modified by land use activities such as agriculture or residential development, land needed to buffer prominent Escarpment Natural Areas, and natural areas of regional significance. In addition, the Escarpment Protection Area policies are directed at maintaining the remaining natural features and the open, rural landscape character of the Escarpment and lands in its vicinity. Agriculture, forestry and recreation will be encouraged. Accordingly, the permitted uses will include:

- existing uses;
- recreational uses which are oriented to the land rather than requiring the building of major structures;
- forest, wildlife and fisheries management;
- archaeological activities;
- transportation and utility facilities;
- watershed management and flood and erosion control projects; and,
- accessory buildings, structures and facilities (e.g., garage) to support the permitted uses as well as site modifications required to accommodate them.

New lots may be created for the purpose of correcting conveyances, enlarging existing lots, or through acquisition by a public body (provided no new building lot is created).

- iii) Special Policy Area "1c" - Urban Area - is based on minimizing the impact and further encroachment of urban growth on the Escarpment environment. Accordingly, the following development objectives are paramount:

- a) All development will be of an urban design compatible with the visual and natural environment of the Escarpment. Where appropriate, provision for adequate setbacks and screening should be required to minimize the visual impact of urban development on the Escarpment landscape.
- b) New development will not encroach into the Escarpment Natural or Escarpment Protection Areas.
- c) New lots will not be created to include the Escarpment Natural or Escarpment Protection Areas.
- d) Lots will not be enlarged to extend into the Escarpment Natural or Escarpment Protection Areas in order to provide for more development.
- e) New lots may include the Escarpment Natural or Escarpment Protection Area designation under the following circumstances:
 - (i) correcting conveyances;
 - (ii) where the land in the Escarpment Natural Area or Escarpment Protection Area is to be acquired by a public body; and,
 - (iii) enlarging existing lots provided no further fragmentation of the Escarpment Natural Area or Escarpment Protection Area would result and provided there is sufficient area in the Urban Area to accommodate the proposed development.
- f) Adequate public access to the Escarpment

will be provided by such means as parking areas, walkways or pedestrian trails (e.g., Bruce Trail).

- g) Development proposals will be compatible with and provide for the protection or restoration of historic features or areas, archaeological sites and structures of architectural significance.
- h) Growth will be compatible with and provide for the protection of unique ecologic areas, wildlife habitats, streams and water supplies and other environmentally sensitive areas both inside and adjacent to Urban Areas.

A.2.9.1.4 It is intended that Development within Special Policy Area "1c" - Urban Area -will be subject to Zoning and Site Plan Control. In the interim, a Development Permit will be required from the Niagara Escarpment Commission, as determined by Ontario Regulation 685/80 as amended, until such time as the City is delegated this responsibility.

A.2.9.1.5 Special Policy Area "1a" - Escarpment Natural - and Special Policy Area "1b" -Escarpment Protection - fall within the Development Control Area, regulated by the Niagara Escarpment Commission (N.E.C.) as defined by Ontario Regulation 685/80 as amended. Any change in use of any land, building or structure requires a Development Permit from the N.E.C., including the construction, alteration or demolition of a building or structure, unless specifically exempted by the regulations.

A.2.9.1.6 All proposals for development occurring in the Niagara Escarpment Plan Area (Special Policy Areas "1a", "1b" and "1c") will conform to the policies, permitted uses and Development Criteria outlined in the Niagara Escarpment Plan.

A.2.9.1.7 All proposals for development in the Niagara Escarpment Plan Area, will conform to the Official Plan of the City

of Hamilton and the Official Plan of the Regional Municipality of Hamilton-Wentworth and requirements established by the Niagara Escarpment Plan.

A.2.9.1.8 Council will not support non-essential developments which will detract from the unique visual and scenic qualities of the brow, face or base of the Niagara Escarpment or lands in its vicinity.

A.2.9.1.9 Council will co-operate with the Ministry of Natural Resources to ensure the development and administration of the Niagara Escarpment Parks System, including the Mount Albion Conservation Area, fulfils the following objectives:

- i) to protect the most significant features of the natural and cultural landscape of the Niagara Escarpment area;
- ii) to provide a wide variety of Escarpment-related outdoor recreation opportunities;
- iii) to provide opportunities for exploration and appreciation of the natural and cultural heritage of the Niagara Escarpment; and,
- iv) to support tourism by providing opportunities for discovery and enjoyment by Ontario's residents and visitors.

A.2.9.1.10 Council may investigate and support the provision of walkways along and across the Escarpment in order to permit pedestrian access between the Lower and Upper City.

A.2.9.1.11 Council will encourage the responsible authorities to undertake appropriate measures to preserve the integrity of the remaining natural areas of the Niagara Escarpment and lands in its vicinity.
